## **Amiya and Fujitsu Vietnam Limited form Business Alliance in Vietnam Introducing ALog ConVerter to the Vietnam Market**

Amiya Corporation (Tokyo, Japan; Seiichi Ito, president) and Fujitsu Vietnam Limited (Hanoi, Vietnam; Sei Kudo, president ) announced a formal agreement for Fujitsu Vietnam Limited to sell and support Amiya’s ALog ConVerter, a server access log management tool in the Vietnam market.

Amiya Corporation is the inventor of ALog ConVerter, a server access log management tool that plays a vital role in corporate data security and risk management in Japan and the rest of Asia. This time, Amiya chose Fujitsu Vietnam as the company’s partner in Vietnam, recognizing Fujitsu Vietnam’s strong sales channel and technical support capabilities that will contribute to ALog ConVerter growth.

ALog ConVerter is the standard among server access log management programs, awarded the Gold Prize in the Info Security Products Global Excellence Awards 2013, Products and Solutions for Asia-Pacific categories. More importantly, ALog ConVerter has been adopted by more than 2,600 corporations around the world, highly regarded for its effectiveness and ease of operation.

Says Sei Kudo, president of Fujitsu Vietnam, "Fujitsu Vietnam Limited has entered into an agreement to distribute ALog Converter with Amiya - the market leader in information leakage countermeasure technologies such as server access log management.

Through combining Amiya's experience in information leakage countermeasure with our system support capabilities, we will achieve greater synergy, thus contributing to the efforts in information leakage countermeasure of current Japanese companies in Vietnam."

Seiichi Ito, president of Amiya Corporation, adds, “We believe this partnership with Fujitsu Vietnam that has strong sales channels and technical strength will open up more sales channels for ALog ConVerter in Vietnam market. We expect Vietnam’s decision-makers to embrace ALog ConVerter with the same kind of reception this software has received in Japan. We look forward to offering Vietnamese enterprises and Japanese enterprises which have Vietnamese branches our solutions that increase their security environment.

## What is ALog ConVerter?

Released originally in September 2005, ALog ConVerter is an agentless (non-resident program) access log management tool. ALog ConVerter takes a server event log and looks for file access, domain logins, and other activity, providing all-in-one proprietary analysis and file compression for long-term storage. It realizes low cost and efficient log management as ALog ConVerter collects log data from the server side where the vital data is stored. ALog ConVerter has been adopted by more than 2,600 corporations

## About Fujitsu Vietnam Limited

Fujitsu Vietnam Limited was established in 1999 with the mission of supporting customers' ICT environment, especially Japanese companies. With three offices in Hanoi (headquarter), Ho Chi Minh (branch) and Hai Phong (branch), we can provide support rapidly over very large areas.
